

PRITIMOHAN SHIT

+91 7478152152 | pritimohanshit@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Technical Skills

Front-End Development: HTML, CSS, JavaScript, React.js, Tailwind CSS

Back-End Development: Node.js, Express.js, Redis, REST APIs, Multer, JWT

IoT & Embedded Systems: ESP32, Relay Modules, Sensors, Microcontrollers (Arduino/ESP32)

Databases: MySQL, MongoDB

Other: C, C++, Redux Toolkit, Git, Typing (50-60 WPM)

Projects

Smart Home Automation using ESP32 | [\[Link\]](#)

- IoT Integration: Built a smart home automation system using ESP32, relay modules, and sensors to control lights and appliances via web dashboard and voice assistant.
- Wireless Communication: Used Wi-Fi to allow remote device control from any internet-connected location.
- Real-Time Updates: Leveraged MQTT for live state synchronization and data communication.
- Energy Efficiency: Enabled scheduled and sensor-based automation to reduce energy consumption.
- Security: Integrated basic authentication for controlling access to automation features.

Whisper (Real-Time Chat Application) | [\[Link\]](#)(<https://github.com/Pritimohan/Whisper--Chat-App->)

- Real-Time Collaboration: Enabled instant and reliable messaging using Socket.io.
- Security Focus: JWT authentication and bcrypt password hashing ensure secure data transmission.
- Scalability: Built a scalable Node.js backend to support concurrent user loads.
- User-Centric Design: Fully responsive interface with clean UI built in React and Tailwind CSS.

BloodConnect | [\[Link\]](#)(<https://github.com/Pritimohan/BloodConnect>)

- Enabled registration and search of blood donors by city and group.
- Used flash messages for UX notifications.
- Built using Node.js, Express.js, EJS, and MySQL

Education

Institute of Engineering & Management (2022–2025)

B.Tech in Electronics and Communication Engineering – Kolkata, West Bengal

Dr. B.C. Roy Polytechnic (2019–2022)

Diploma in Electronics and Telecommunication Engineering – Durgapur, West Bengal
